

Colossal performance

156-tonne press table from one provider

Images 1 - 4: © Jebens GmbH

Images 1 - 2: 3,620 mm high, 4,950 mm long and 7,950 mm wide: ANDRITZ Kaiser commissioned Jebens, as the leading specialist in large, heavy flame-cut parts and blanks and complex welded constructions, with the production of the press table.

We would be pleased to send you these or other images in printable resolution via e-mail.

Image 3: Precision work in steel: While producing the 156-tonne colossus, the welding experts from Korntal-Münchingen had to adhere to minimum tolerances.

Image 4: Precision and Performance: The production of the press table was a real challenge for the welding experts from Korntal-Münchingen.
